

### **Post AGM Announcement**

The PTFC Trust became majority shareholders of the club two weeks ago. The current Trustees took the decision to use this position to promote stability and a smooth transition to greater fan engagement and a more appropriate fan ownership model.

This will mean a broader membership of the PTFC Trust, elections for Trustees and representation on the club board.

We recognise that some supporters are frustrated with the current situation, however, we do not believe it would be appropriate to use our position to make fundamental changes before consultation with the wider fan base. Our recent conversations with club employees and sponsors support this decision.

However, as the majority shareholders we will monitor the situation closely and have the power to act quickly should circumstances change.
